# Sir William Burrough School

---

## Records Retention Policy

### Introduction

Sir William Burrough School recognises its duty to ensure that records are both kept in order to allow the school to fulfil its function, and disposed of appropriately when they are no longer required to do so. In accordance with the General Data Protection Regulation (2018) and the associated Data Protection Act (2018), the school will keep its records secure and safe; further details are available in the Data Protection Policy. This document, then, is the policy detailing the management and disposal of all records that the school maintains, regardless of the media by which they are stored.

### Scope of the Policy

This policy applies to all records that are created, received or maintained by staff of the school in the course of carrying out the functions of the school. Records are defined as all documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created or received, and then stored, in hard copy or electronically.

A small percentage of the school's records may be selected for permanent preservation as part of the schools' archive and for historical research.

### Responsibilities

The school has a corporate responsibility to maintain its records and record keeping systems in accordance with the regulatory environment. Whilst some areas come under specific statutory provisions, others are guided by guidance only, and the school has made informed decisions on how these areas are treated.

The person with overall responsibility for this policy is the Headteacher. Other members of staff are expected to manage their record keeping systems in accordance with this policy and associated retention schedule, and to take account of the different kinds of retention periods when they are creating new record systems.

### Disposal of Records

All records, hard copy and electronic, should be disposed of in accordance with the schedule below (Appendix A). Electronic files, either cloud- or server-based should be deleted. Other electronic media (CDs, DVDs, etc.) should be cut into pieces. Hard copy data of a personal nature should be shredded with a cross-cutting shredder; all other non-confidential paperwork should be recycled whenever appropriate.

### Policy Review

This policy has been reviewed by the Headteacher, Deputy Headteacher and governors as at the date below and will be reviewed and updated as necessary every three years or as legislation demands.

Signed (Chair of Governors).....

Date.....

## APPENDIX A – DATA RETENTION SCHEDULE

### PUPIL DATA

Basic file description	Data Prot issues	Statutory Provisions	Retention Period	Action at the end of the administrative life of the record
